

Parcelable

ArrayList< TouchPoint >

CREATOR

points

ch.zhaw.ba10_bsha_1.service.MicroGesture

```
classDiagram
    class MicroGesture {
        CREATOR
        points
    }
    class Parcelable
    class ArrayListTouchPoint["ArrayList< TouchPoint >"]
    MicroGesture --|> Parcelable
    MicroGesture --|> ArrayListTouchPoint
```

The diagram illustrates the relationship between the `MicroGesture` class and its interfaces. At the bottom, a grey box represents the `ch.zhaw.ba10_bsha_1.service.MicroGesture` class. Two arrows originate from this box: a solid blue arrow pointing to the `Parcelable` interface box at the top left, and a dashed purple arrow pointing to the `ArrayList< TouchPoint >` interface box at the top right. The dashed purple arrow is labeled with `CREATOR` near the `Parcelable` box and `points` near the `ArrayList` box, indicating that the `CREATOR` field in `MicroGesture` is of type `Parcelable` and the `points` field is of type `ArrayList< TouchPoint >`.
